Expect's Supported Living Services are aimed at supporting people living with a range of conditions, such as Mental Illness, learning disability, Autism Spectrum Disorders, Acquired Brain Injury, Dementia, Personality Disorders etc. to live as independently as possible in their own tenancy.

Services are offered to those who are considered to need support managing various aspects of living, including developing and maintaining friendships, budgeting, bill paying, shopping, cleaning, keeping safe and secure and accessing professional services. All support provided takes account of individuals ability and is delivered with a view to maximise personal independence and encouraging the service user to do as much for themselves as possible.

We provide support to people in a variety of settings, including; small complex of self contained flats and studio apartments, shared communal living and semi independent living.

You can access supported living using your personal budget or other form of direct payment by paying with private funds, or with funding directly from your local authority.
