

Expect Group of Companies Access to Care Service User Survey Results 2023

AIM:

To engage with Service Users and give them the opportunity to share their views and feedback on the Services provided by the Expect Group of Companies - Access to Care

To identify any necessary changes for learning and improvement

To monitor and evaluate shared information

RESULTS:

The annual survey was circulated using Google Forms and completed anonymously by Access to Care Service Users. 4 Access to Care Service Users were given the opportunity to complete the survey, a total of 4 responses received.

Results from the Service User Survey are positive. 100% of respondents are happy with the level of support they receive, feel they are treated with dignity and respect, feel supported by their staff teams and feel encouraged to achieve their goals. 100% of respondents also feel their emotional needs are being met and are confident they are accepted for being themselves.

Only 25% of respondents agreed that their personal plan is reviewed regularly and 50% of responses indicated that respondents have the opportunity to be involved in their personal plans.

Staffing responses indicate that respondents report that they are happy with the support they receive, are encouraged to be as independent as possible and staff listen and take note of their views.

Accommodation responses indicate that in the main respondents are happy with their accommodation, however again 50% of respondents express that they are not encouraged to personalise their own room.

100% of respondents express they know who to speak to if they have a problem, they receive information in a way they can understand and that their information is kept safe and confidential.
